Washington, DC 20554

Dear Greg Lipscomb:

The High Bridge BOE is appealing the decision made by the FCC on CC Docket No. 02-6 on November 18, 2002. This decision is based upon the information given to me by the Schools & Libraries Division. I have been waiting for a spin change request since July 31, 2001.

To date I have not received any paper work regarding this change. Since September, 2001 have been checking regularly with the SL&D on the spin change request status. To verify this information you can reference case number 71867.

The High Bridge ROE has sent in their applications from prior years on a timely basis. Why would this district send in their application late when the district can use the money? The direction that the district received from S&LD was that no paperwork should be sent to S&LD until High Bridge received their spin change request form approval. No one from S&LD stated that would include the application for year five.

The application was only submitted after checking the status of the spin change request and the operator noted that the year 5 applications was not received. I feel that the employees at the S&LD should explain operations and procedures more clearly to avoid controversies. The employees of the S&LD are there to help schools, without school they would not have jobs. Please consider my appeal for a waiver based on these considerations.

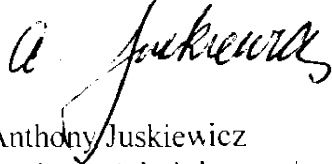

If this appeal is denied I would like to know what is the basis for the decision. Your cooperation in this matter is greatly appreciated.
